- » ELIMINATE GLARE.
- » BLOCK ALL HARMFUL UV LIGHT.
- » PROVIDE THE BEST OUTDOOR VISION.
- » ARE THE THINNEST, LIGHTEST, STRONGEST LENS AVAILABLE ANYWHERE.

SUNRX TOUR HEATS UP ...

As April showers turn into May flowers, get ready to learn how to sell more SunRx polarized lenses than ever before. That's right! The SunRx Summer Hummer Tour is on its third leg and is coming to your local SAM'S CLUB Optical or Wal-Mart Vision Center in Georgia and Florida.

The tour began in Rogers, Arkansas, in March and has made stops at Clubs and stores throughout Louisiana and Alabama. At store 1481 in Homewood, Alabama, store manager Kathy and her staff made bright yellow T-shirts adorned by a picture of the Hummer. The doctor even got involved with the event and dressed up as well. The staff was full of energy and excited to learn about the benefits of SunRx polarized lenses! Stores throughout the nation have also had an awesome attitude and had fun with this retail-tainment event.

As the tour heats up, get ready to be a part of this creative, imaginative, and fun event! Can you top the last stop?
